

Keynsham Cemetery Records

transcribed by John Cheyne

Notes:

An asterisk * before a number indicates that either there is no stone or the stone is indecipherable, and the details have been copied from the Burial Registers held in the Council Offices. Hence the date of death is here the date of burial.

SBV refers to babies & very young children interred in the Parish Still-born Vault. There are two such vaults, now disused, in the old part and one in the extension.

G of R refers to the garden of remembrance which is in a corner of the extension, for people buried or cremated elsewhere.

Grave numbers 1-1999 are in the old part, nearest the road & 2000 in the extension.

There is also little indication of the relationship between members of the same grave space; quite often 3 or more people unrelated to one another are interred together - presumably because they had no-one to bury them in a family grave so they were put in a 'Parish grave' and no stone was erected.
